Advertisement for Research Interns

The Centre for Science, Technology & Society, School of Habitat Studies of Tata Institute of Social Sciences is looking for 18 research interns- 04 in Odisha, 07 in Chhattisgarh and 07 in Jharkhand. The research interns will be required to assess and document forest-based livelihood and the implementation status of the forest rights act in the above mentioned states.

Location

Odisha: Kalahandi, Rayagada, Kandhamal and Mayurbhanj

Jharkhand: West Singhbhum, Godda, Gumla, Dumka, Pakur, Lohardaga, Seraikela-Kharsawan

Chhattisgarh: Bastar, Dhamtari, Kabeerdham, Balrampur-Ramanujgang, Surguja, Uttar Bastar Kanker, Raigarh

Duration: 45 Days (10th December 2021-14th January 2022)

Role and Responsibilities

To undertake household survey to assess the scale and form of forest-based livelihood in tribal areas

To discuss with the Gram Sabha members, SDLC and DLC members about the process of implementation of the forest rights act

To analyse and document the collected information for the above two objectives

Educational Qualification

- Students pursuing masters degree or completed masters in social sciences
- Knowledge in the field of rural livelihood and forest rights act
- Ability to conduct rural fieldwork independently
- Good report writing and analysis skill

Remuneration: Rs. 10,000 and Fieldwork Expenses: Rs. 5,000, Total: Rs. 15,000

How to apply?

We prefer the interested candidates to send their CV at tissrrrg@gmail.com on or before 14th November 2021. Please mention your choice of district and state to intern with us. The shortlisted candidates will be called for an online interview on 17th and 18th November 2021. The selected candidates will go through a two-day training program before they join us. Tentative schedule for the training program is 10-11 December, 2021.
